### Materials

Before you start drawing, you will need to gather a few basic materials.

These include:

- Pencils
- Paper
- Eraser
- Ruler

### Basic Techniques

Once you have your materials, you can start learning the basic techniques of manga drawing. These include:

- **Linework:** Linework is the foundation of manga art. It is important to practice drawing clean, precise lines. You can do this by practicing drawing basic shapes, such as circles, squares, and triangles.

- **Shading:** Shading is used to create depth and dimension in your drawings. You can shade using a variety of techniques, such as cross-hatching, stippling, and blending.
- **Perspective:** Perspective is the art of creating the illusion of depth in a two-dimensional drawing. You can learn perspective by practicing drawing simple objects, such as boxes and cubes.

## Character Design

Once you have mastered the basic techniques, you can start designing your own manga characters. When designing a character, it is important to consider their personality, appearance, and backstory. You should also think about the role that your character will play in your manga story.

Here are some tips for character design:

- **Start with a sketch:** When you are designing a character, it is helpful to start with a sketch. This will help you to get a feel for their proportions and overall shape.
- **Pay attention to details:** The details of your character's appearance can help to convey their personality. For example, a character with large eyes may be more expressive, while a character with small eyes may be more reserved.
- **Don't be afraid to experiment:** There is no one right way to design a manga character. Experiment with different styles and techniques until you find one that works for you.

## Storyboarding

Once you have designed your characters, you can start storyboarding your manga. A storyboard is a series of panels that tells the story of your manga. It is important to storyboard your manga carefully, as it will help you to stay organized and on track.

Here are some tips for storyboarding:

- **Start with a plot outline:** Before you start storyboarding, it is helpful to have a plot outline. This will help you to stay focused and ensure that your story has a clear beginning, middle, and end.
- **Use thumbnails:** Thumbnails are small sketches that you can use to plan out the composition of your panels. They will help you to visualize
